Ntirhisano

We Care. We Act

Respond

Resolve

Grow

The Gauteng Provincial Government is implementing an integrated, comprehensive and sustainable service delivery model that seeks to radically transform interactions between government and communities to better respond to the people's needs.

Dubbed Ntirhisano – a Tsonga word for working together – the collaborative service delivery system aims to improve government's service delivery capacity and build an activist public service that is responsive to the needs of the people. It further seeks to empower communities to propel their own development.
